

DO YOU PROVIDE INFORMAL CARE FOR SOMEONE LIVING WITH DEMENTIA?

Help us understand your experiences providing informal care. We are interested in learning about the kinds of support you need.

TO BE ELIGIBLE TO PARTICIPATE, YOU MUST:

- Be an informal carer (for at least 6 months) for a person with dementia. *Present carers are eligible, as well as people who have provided care in the last 12 months.*
- Be able to read and write English
- Reside in Australia

What will I be asked to do?

The study consists of a confidential survey that will take approximately 30-45 minutes to complete.

You will be asked to provide some demographic information about yourself and the person with dementia you provide care for. You will be asked about the effects of your carer role on yourself, the types of care you provide, and whether you would like more support in care tasks. You will also be asked to complete measures of your psychological well-being, quality of life, social relationships, and experiences with different legal services or tasks in your care role.

After completing the survey, you can choose to enter a random draw to win one of three \$50 gift cards.

How do I get more information or sign up?

Please scan the QR code or follow the link to navigate to the Participant Information and Consent Form to read more about the study. If you consent to participating, you will then be directed to the main survey. After survey completion, you will be redirected to the prize draw entry.
